Alumni's Remarks and Relations 校友心聲與聯繫

The sociology training and the knowledge I gained from it has raised my social awareness and strengthened my capability of analytical thinking. That helps me better able to tackle the life challenges that lie ahead.

社會學的訓練使我學會理性分析，懂得從不同視角，深入探討社會現象，這思辨能力不但增加我對社會的歸屬感，亦有利應付工作上挑戰。

YING Mei Yan Olivia 英美茵

The sociological perspective increases my exposure to a world of variety, changing the way I see things significantly. It teaches me how to put aside bias, understand, think critically and accept other "unusual" things -- what do not exist in our norms does not necessarily mean that they are to be discriminated and excluded.

社會學的思考框架，改變了我以往狹窄的思維方式，讓我更有意欲去接觸這個世界的不同層面。三年的社會學課程令我明白應摒棄偏見，理解及多角度思考，接受異者——不在我們社會規範中的異者，並不代表他們應被歧視及排斥。

MAI Yee Yan 米漪媛

The methods and concepts in sociology help students develop critical insights into the social processes shaping lives, experiences, problems and possibilities in our lived world. The ability to identify, understand and analyze these processes, called "sociological imagination," is essential to our personal development and social participation in a changing and complex society.

社會學的方法和概念有助學生培養具批判力的洞見。它們能讓學生理解社會互動過程對於生活世界中生命、經驗、問題和可能性探索的形塑。社會學期望學生在個人發展和社會參與方面均具備確認、理解和分析上述社會互動過程的能力，並在複雜常變的社會中發揮「社會學的想像力」。
